TOP COLORING TIPS!

1. Put a Blank Sheet Behind Your Page
   When using juicy markers, place a scrap sheet behind your drawing to keep the next page perfectly clean!

2. Start Light, Then Go Dark
   Color lighter shades first, then layer darker tones on top for amazing depth and pop.

3. Mix Your Art Tools
   Try combining crayons, colored pencils, and markers together on the same picture for fun textures.

4. There Are No Mistakes In Art!
   Make your treats any color you want. Blue pancakes and rainbow cupcakes are awesome!

ARTIST SIGNATURE

One of the first cupcake recipes, from 1796, said to bake the cake in small cups!

People have been making pancakes for thousands of years!

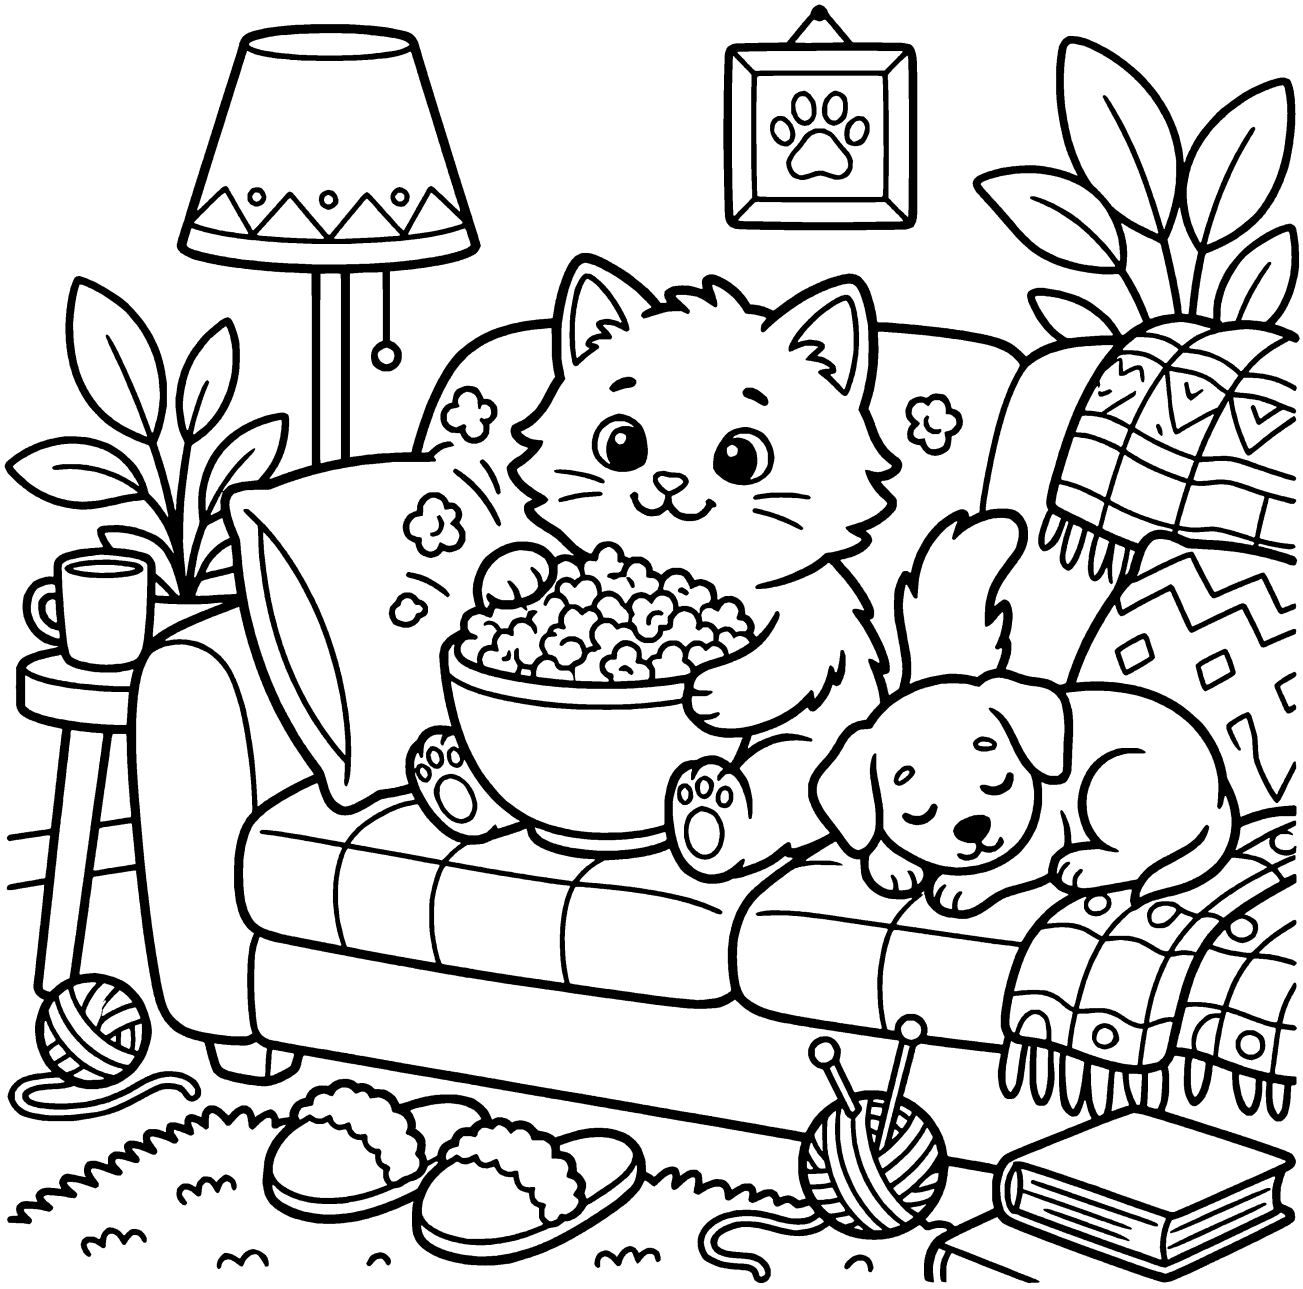

Honey can stay good to eat for thousands of years!

A strawberry has about 200 tiny seeds on the outside!

Vanilla ice cream gets its flavor from the seed pods of an orchid flower!

Popcorn pops when a tiny drop of water inside each kernel turns to steam!

Pizza comes from Naples in Italy, where people have baked it for hundreds of years.

Bananas are berries, but strawberries are not!

A watermelon is about 92 percent water. That's why it's so juicy!

The first carrots were purple and yellow, not orange!

Apples float in water because about one quarter of an apple is air!

A pineapple plant takes about two years to grow one pineapple!

Peanuts aren't really nuts. They grow underground, like beans!

Chocolate is made from cacao beans that grow in big pods on cacao trees!

A dentist helped invent the cotton candy machine more than 100 years ago!

An 11-year-old boy invented the ice pop after leaving his drink outside on a cold night!

Spaghetti means "little strings" in Italian!

Rice is the main food for more than half of all the people in the world!

An ear of corn almost always has an even number of rows!

Blueberries are one of the very few foods that are naturally blue!

A lemon tree can grow flowers and lemons all year long!

Raisins are grapes that have been dried in the sun!

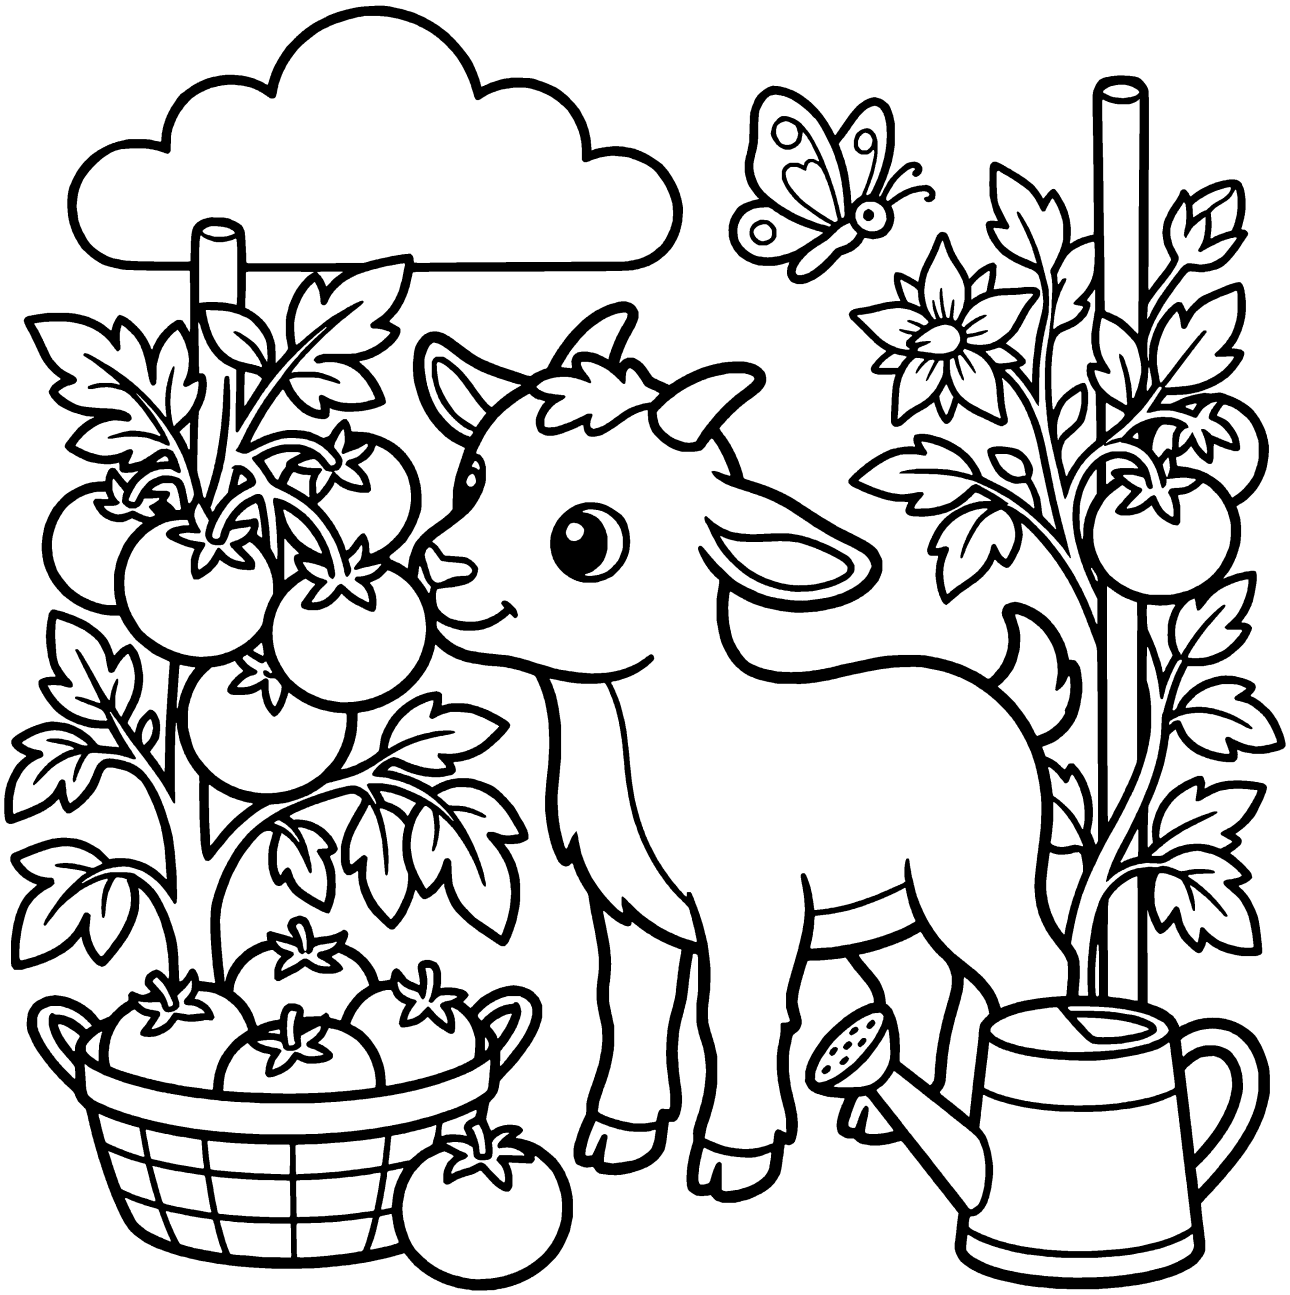

Broccoli is a flower! Each little bump is a tiny flower bud.

Potatoes were the first vegetable ever grown in space!

An avocado is a fruit, and each one has one big seed inside!

Tomatoes are fruit, because they grow from a flower and hold seeds!

A pumpkin is a fruit, and it can have hundreds of seeds inside!

Coconuts can float across the ocean and grow on a faraway beach!

Chocolate chip cookies were first baked in Massachusetts in the 1930s!

The hole in a donut helps it cook evenly all the way through!

Some say a pretzel's twisty shape looks like arms folded across a chest!

Yeast makes bread dough rise by filling it with tiny bubbles of gas!

The first American waffle iron was invented in 1869!

The first marshmallows were made from a plant called the marsh mallow!

A dairy cow can make more than 6 gallons of milk in one day!

Sandwiches are named after the Earl of Sandwich, a man from England!

Cinnamon comes from the bark of a tree!

The kiwifruit is named after the kiwi bird of New Zealand!

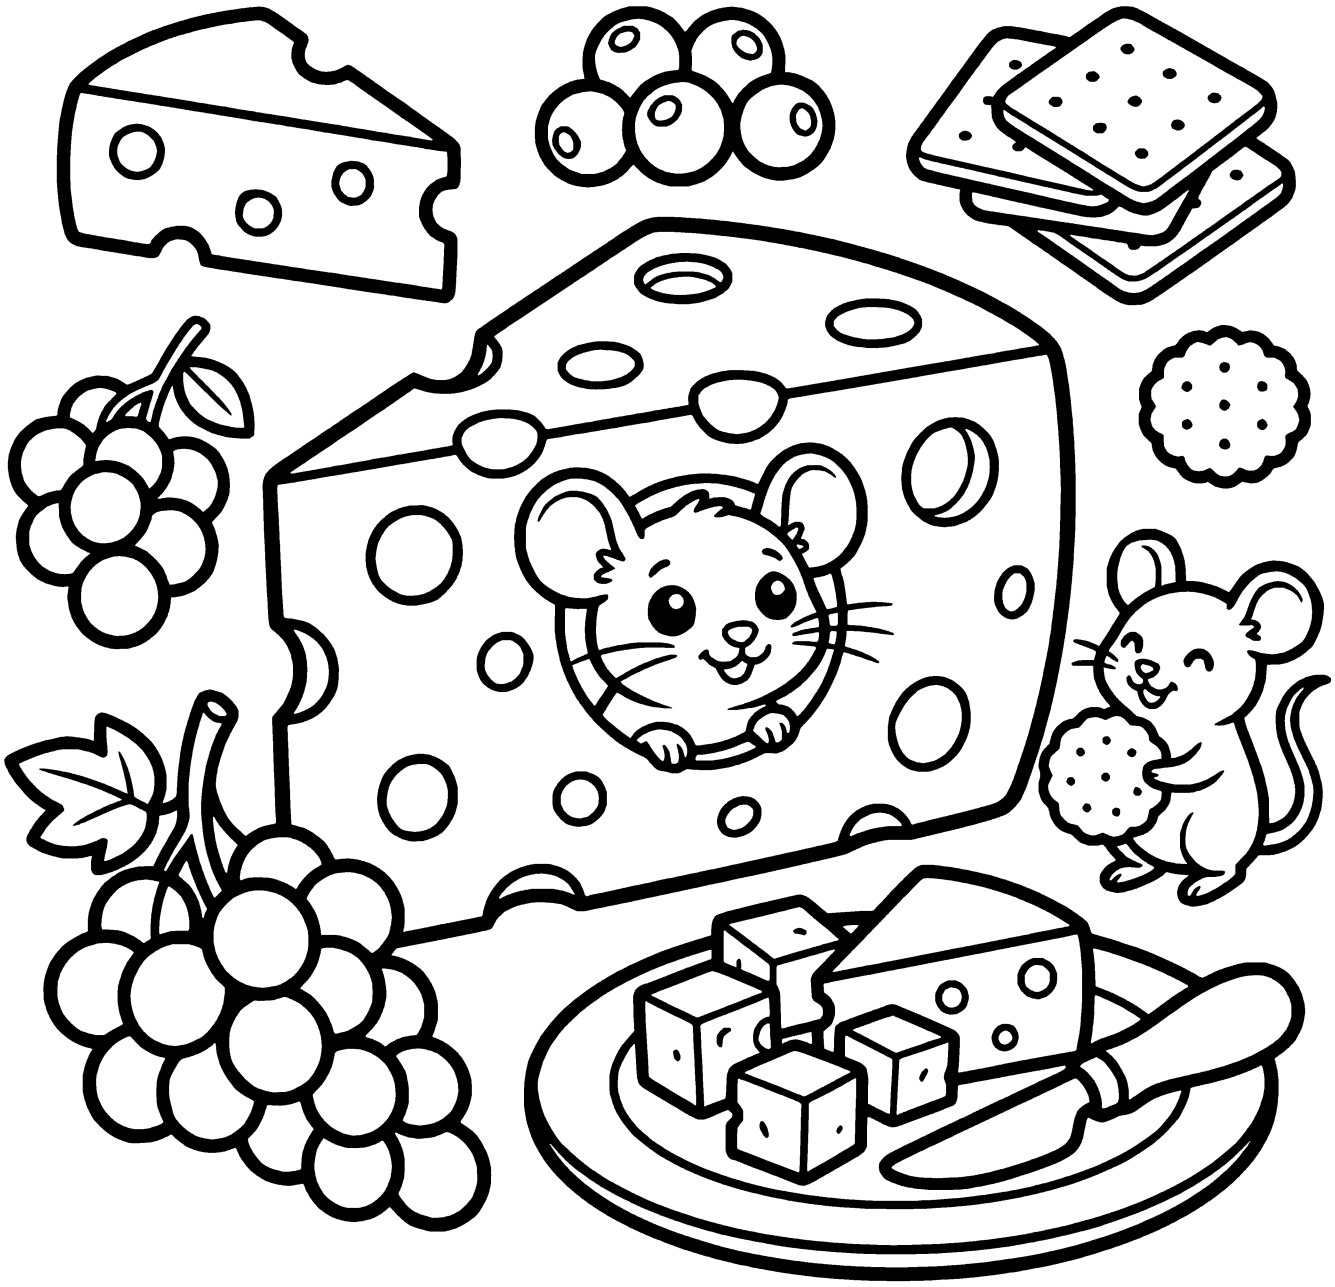

Tea is the most popular drink in the world, after water!

S'mores got their name because everyone wants some more!

People have put candles on birthday cakes for hundreds of years!

The holes in Swiss cheese come from tiny bubbles of gas!

It takes about 40 gallons of tree sap to make 1 gallon of maple syrup!

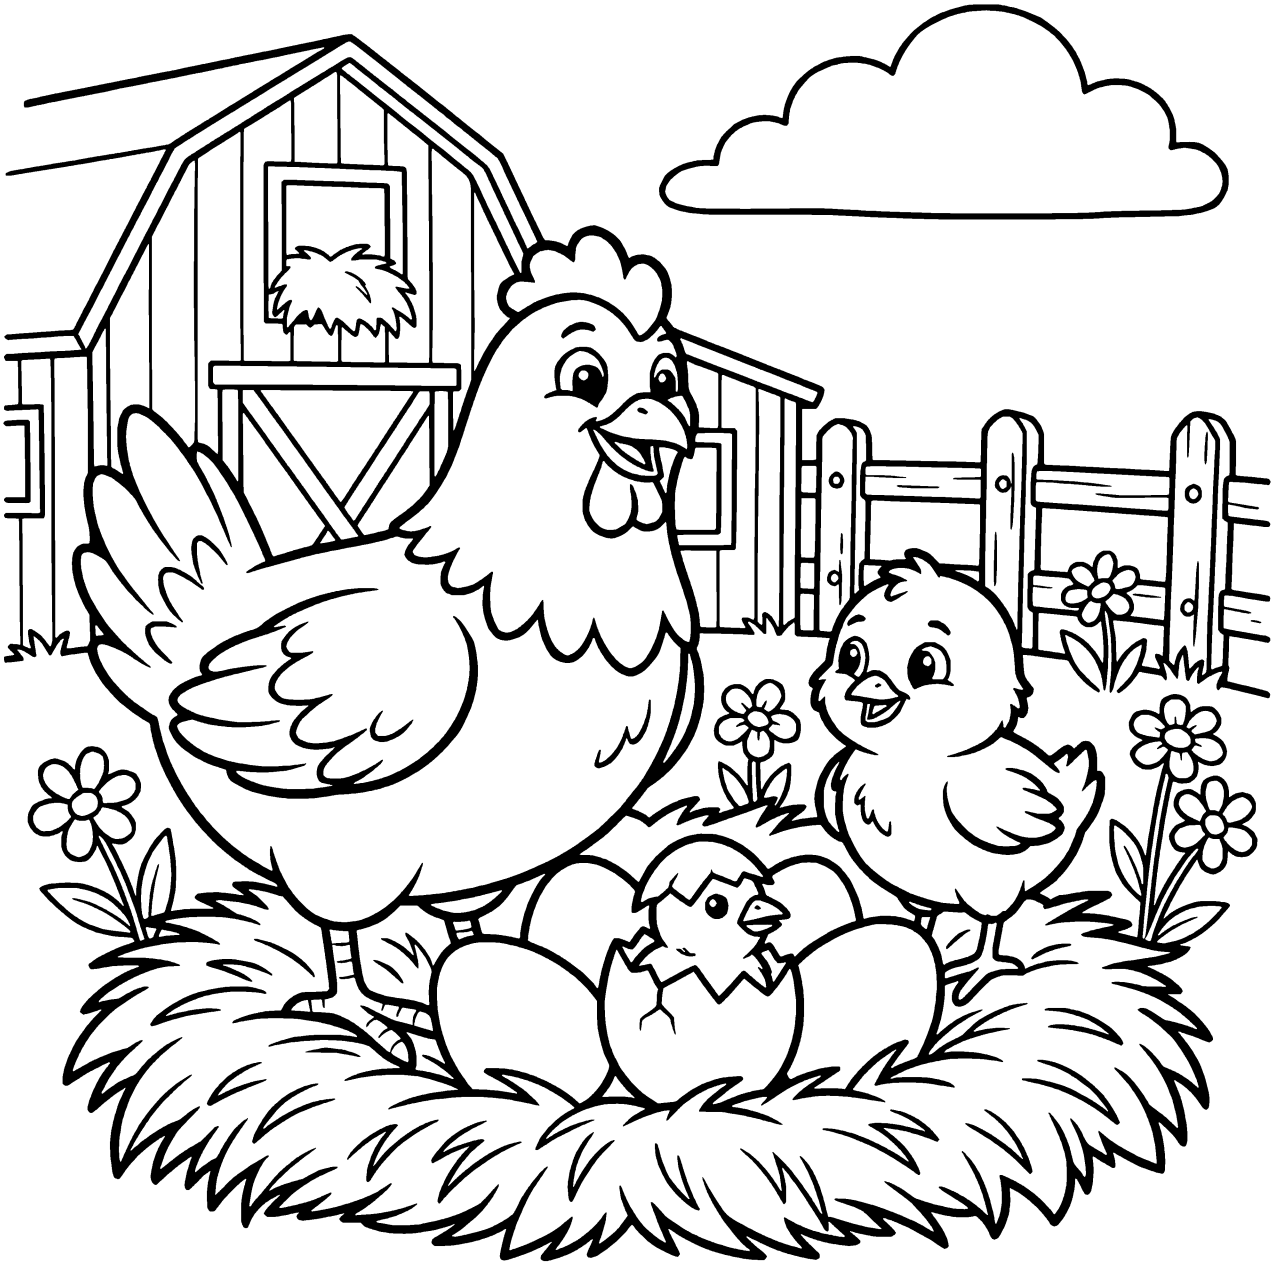

Some bamboo can grow about 3 feet in just one day!

A navel orange has a tiny second orange growing at its bottom end!

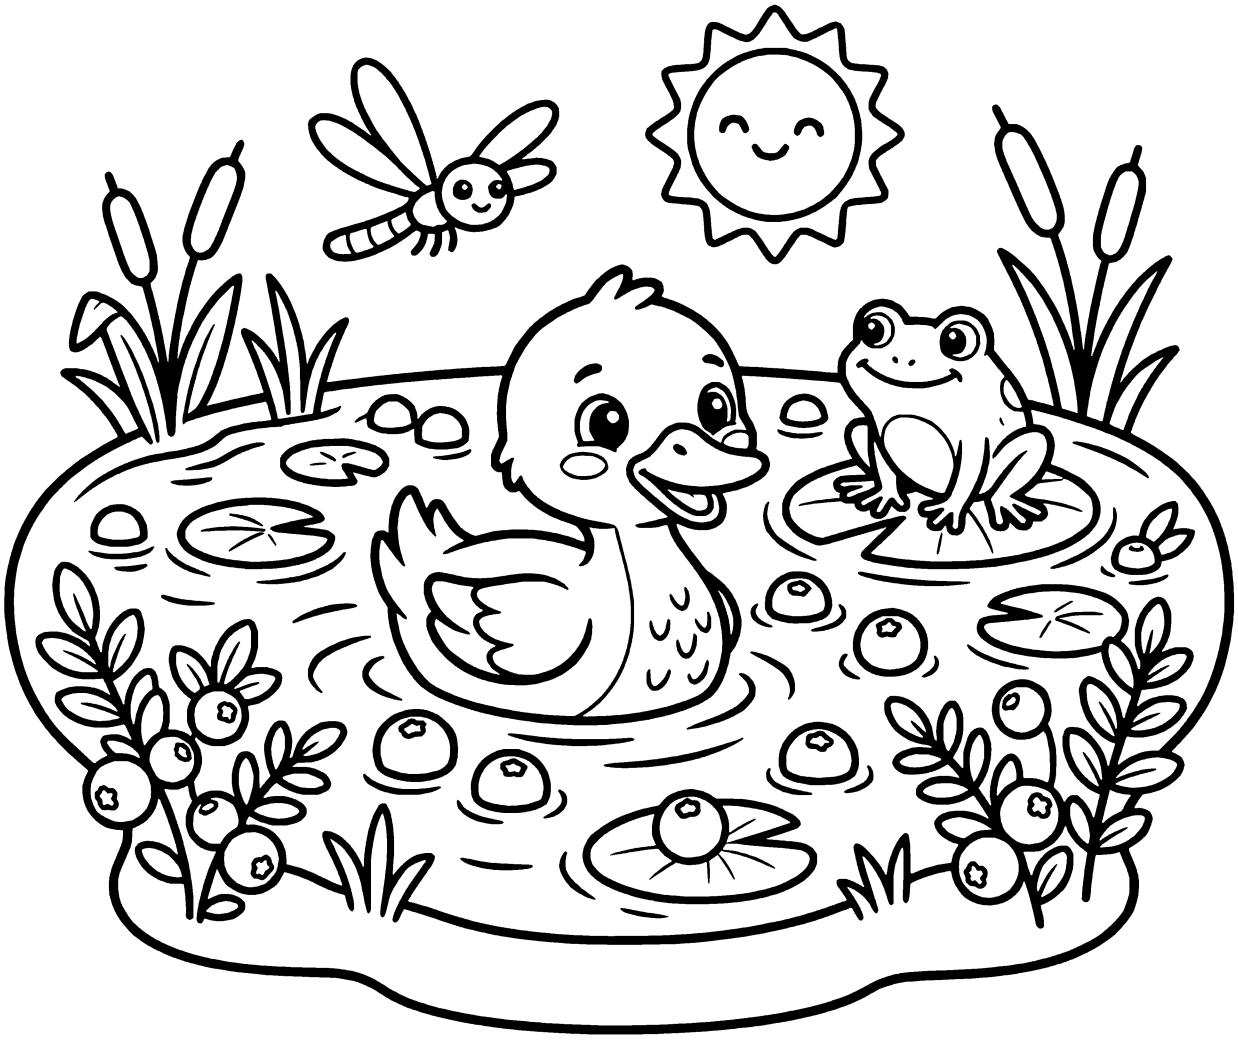

There are more than 7,500 kinds of apples in the world!

A hen can lay almost one egg every day!

Mangoes are cousins of cashews and pistachios!

Cranberries have tiny pockets of air inside, so they float and even bounce!

Thanks for coloring with the Yummy Cuties. Enjoy a tasty treat!
